Coffee Mornings & Micro Forums

Registered Charity No. 1171389

From Mornings A Micro Forum

- Coffee mornings can either be provided on an individual ad hoc basis, or as part of a group package. The group packages consist of 6 sessions per year.
- We will work with you to set up, assist in advertising and provide support at the coffee mornings.
- We can provide themed coffee mornings that are based on the particular needs of the demographic at your setting.
- We aim to use these sessions to provide a supportive environment for parent carers to decrease feelings of isolation whilst simultaneously providing information that leads to greater empowerment, self awareness and resilience.

Feedback from participants

"Resources available, meeting other parents support"

"All of the information was very useful. I have learnt a lot "

"Very knowledgeable host. Helped me put everything into preparation and what to do next "

"Being able to express our concerns and being given pointers/ directions"

These coffee mornings will be the springboard from which we will aim to educate parents on the principles of participation and co-production forming the basis of a micro-forum

The overall aim of this project is for the parents to assume responsibility for the coffee mornings and micro-forums and for these to be self-sustaining.

The aspiration for the micro-forums is for them to be the vehicle from which SEN Information Reports and other SEN related policies and procedures can be co-produced with your setting.
