About FVP

At Family Voice Peterborough (FVP) we actively seek to improve services in all areas of the lives of children and young people with disabilities or additional needs by working with their parent carers. We achieve this through participation and strive for co-production with parent carers and professionals across health, education and social care.

As the designated Department for Education (DfE) parent/carer forum for Peterborough we are unique in what we offer with regard to provision for parents, carers, children and young people and, in how we work to facilitate co-production with key strategic partners through the commissioning of services.

Our team is comprised of parent carers who have extensive knowledge and expertise within the field of Special Educational Needs and Disabilities. All trainers within FVP are qualified to deliver to adult learners across various areas and have extensive experience of delivery both locally and nationally.

Our Offer

We provide expertise via our qualified trainers and parent representatives within a setting to help strengthen engagement, trust and participation between parent carers and settings leading to co-production, which in turn creates the best possible outcome for all children with SEND.

How it works

Family Voice Support

- Coffee Mornings
- Workshops
- Parent Training
- In-house Training
- SEN Information Report Consultation & Co- Production

Building Trust in Relationships

Through providing training and helping establish regular coffee mornings FVP aims to build trusting relationships between parents and settings enabling better communication and willingness to work together

Parent carers and settings together

- Co-producing services for children and young people.
- Shaping the school offer together.
- Creating positive outcomes for all.
