

Corporate Partnership with FVP - Helping us to help families

This year (2019 to 2020) we've had local businesses that have supported us through our corporate partnership pack

PJ donated £5000 to support us with the caravans for Butlins and Caister; Nisa Locally donated £255 to pay for the Halloween party at Activity World ; Buckles donated £2895 to support with our community centre; Co Op & Peterborough Biscuit have chosen us as charities for the year.

The support has allowed us to deliver fun events/ activities & informative workshops for the local community & families who have children with SEND; making sure they have accurate information to support the needs of their child whilst enjoying our activities.

Christine Nicholls, our Charity Development Officer researched local business in Peterborough to find out if they can support us then sent out our corporate packs, explaining who we are and what we do as a charity. She had the following to say
"The money that has been given to FVP through our Corporate Partners has enabled us to run the caravans, have halloween and christmas parties, run day trips and complete repairs to the building enabling us to stay open to the public and support the community. Every penny goes back into the charity for the users to enjoy".

Do you know any businesses that are looking to support a small local charity in Peterborough ?
