Parents & Carers of Disabled Children

We will be partnering with Wills and Probate as part of our corporate partnership programme with the aim of continuing to provide information, advice and signposting to parent carers across Peterborough during 2020.

Wills and Probate will be offering some pro bono work that may include developing free simple Wills to ensure the right guardian is appointed; or free health and welfare lasting powers of attorney to help a parent remain in control when their special needs child turns 18; Information based workshops for parent carers and other members of the local community who access The Goldhay Centre and access to more specialist support and services

This partnership means we can ensure that we are able to provide parent carers with important information and signposting on a topic that can have a large impact on their lives, especially as their young people approach adulthood.

John Ravenscroft (FVP ChairPerson) Said *"Family Voice are pleased to be working with Wills and Probate by allowing them to offer their services to parent carers that have children with SEND"*

Nick Ash from Wills and Probate Services told us that *"It is really important for companies like mine to engage with organisations like Family Voice. Parents of disabled and special needs children have a huge job on their hands dealing with the issues that they face day to day. It is often difficult for them to lift their eyes and focus on the longer term. By working with Family Voice we will be able to deliver simple, cost effective solutions that will offer peace of mind to families if a parent dies, and more importantly when a child turns 18"*

"
